i. Selection of recipients

- Emilio Wawatie: setting up a base for camping activities, bushcraft. Has been involved in previously funded saf projects, working with idigenous orgs, and they teach classes

- Autumn Banks: working with collective 4891 on a zine project, art as a healing mechanism, creating spaces for marginalized folks and queer folks
- Ourania Ntagizege Nima: Community Carrot, a space to share ideas and give meals, a space to help with sharing experiences, building community
- Michelle Duchesneau: Part of batiment 7 and Press Start, working with young BIPOC and LGBTQ+ to support their art and art creation, community oriented project
- Anqi Sun: Music therapy community services, helping people with their well-being. Helping underrepresented group of people in the city

6. Project Funding Allocation (8 projects to review)

a. **Regular Project Funding Budget:** \$[10,401.59]

b. **Living Labs Project Funding Budget:** \$[30,040]

Project 1: [Engaging Solarity: Taking Solar Media Mobile (SLLFP)]

- Request for \$4,965
- Recommendation to approve full funding
- Presented by [Georgette]
 - Notes
 - Student run initiative
 - SPC wants to provide full funding
 - One time event occurring 4 times
 - Explores solar energy for communication, internet carbon footprint, decarbonize internet infrastructures.
 - Speculative solar media designs
 - 4 events as a series of interactive and experimental events, invites attendees to engage in topical aspects surrounding solar energy and the internet
 - Consider the roles of solar power in daily life and in the future, encourage critical thinking and technical possibilities of bringing solar energy into the everyday
 - Petal box gallery: partner that brings art based support
 - In the long term: new collaborations to bring more solar nodes into their research to work with more artists and researchers
 - Living labs application
 - Sabrina has greenlit the project, but only fits under research category 4.1
 - Willem: loves the idea of a pop up educational stand and the focus on solar power. In full support of the project
 - Roy: thinks it's a good idea, interesting events. Disappointed that they can't address more climate goals. But he sees potential to grow and expand through partners. Great and thorough application
 - Seb: great that they are linking up with another SAF project (Petalbox gallery), increases their impact through linking up

Motion to approve full funding of [\$4,965] to the [Engaging Solarity: Taking Solar Media Mobile] project.

- **Moved by:** Georgette
- **Seconded by:** Chris
 - In favour: all
 - Against: None
 - Abstain: none
- *Motion passed; unanimously approved*

Project 2: [Mending the Museum (SLLFP)]

- Request for \$9,997.42
- Recommendation to deny funding
- Presented by [Georgette]
- Notes:
 - One time event
 - Organized by Karina and Camilia
 - Teaming up 4 artists to create new pieces using archives relating to ancestry and cultural memory
 - Digital product: tackling textile waste and encouraging alternative ways of making
 - Research and development phase then workshops for Concordia students phase
 - Receiving funding for textile museum of Canada for use of their space for exhibition
 - Decolonizing research and the institution. Repatriation of objects due to repatriation
 - Wants to deny funding because project is taking place in Toronto, and the funding would be going towards the first part of the project of research, not the part benefiting Concordia students directly
 - Targets waste 2.1 and research 4.2
 - Project was not greenlighted by Sabrina for living labs, and would have to come from regular funding. Do not see how project is addressing any of the targets
 - Project leaders: have reached out to museums in Montreal but they have not received responses. Collections they were interested in were the McCord and MMFA. Funding could help support their request. Want to contact FOFA for the vitrine, but can only be requested once project is confirmed
 - Georgette: the exhibition will present works that were stolen in the archives, implementing a way to positively demonstrate the true history of the objects
 - Roy: interesting project, but there is not enough connection to Concordia. Not surprised that museums denied them access. Could be a wonderful event at 4th Space? Textile waste is a topical subject. This could be a great project but there needs more connection to the university
 - Willem and Faye: agree with Roy
 - Georgette: going to the wrong person for funding, will benefit Toronto though. Would like

- to give recommendations of places for them to get funding as suggested by Faye
- Seb: if this project was connected to museums in montreal, would the board be more interested in funding it?
 - Georgette: would approve half the funding and encourage them to find funding from other sources
 - Mitchell: theres a lot going on, but maybe with a more specific project application they can have a clearer direction to concordia
 - Willem: clarification of budget details would be needed should they reapply for funding
 - Georgette: should we give them recommendations to fix their budget and find local funding/museums to work with and encourage them to resubmit?
 - Roy: with a more fine tuned application and relation to montreal/concordia, Roy would love to fund it
 - Seb: more funding sources are needed

Motion to deny funding of [\$9,997.42] to the [Mending the Museum] project.

- **Moved by: Georgette**
- **Seconded by: Erik**
 - In favour: all
 - Against: None
 - Abstain: none
- *Motion passed; unanimously approved*
